PROFILE

I am a highly motivated and engaged learner seeking a co-op opportunity in the IT field. I am currently in Level 2 at Algonquin College's Computer Engineering Technology – Computing Science program. I am looking to gain relevant experience in my field and set myself up for a successful career in the industry.

EXPERIENCE

Fortier Stark Industrial – Welder/Pipefitter

May 2023 – Apr 2023

- Fit, fabricate and weld complex piping systems for food, dairy and pharmaceutical industries.
- Handling materials such as stainless steel and mild steel.
- Fabricate and weld sanitary and high-pressure piping with strict tolerances.
- Ability to read 3D and isometric drawings along with piping and instrumentation.

Davis Engineering – Jr. Welder

Aug 2022 – Dec 2022

- Passivate stainless steel structures fabricated for the Naval military industry.
- Perform basic fitting tasks to assist other welders.

Fortran Steel – Structural Welder

Feb 2022 – Aug 2022

- Assist in fabrication of structural beams, anchors, supports and railings.
- Read simple structural blueprints.
- Operate various heavy equipment including shears, ironworkers, forklifts, and scissor lifts.
